ACTIVITY LEARNING OBJECTIVES

At the conclusion of this activity the participant will be able to...

- Demonstrate the normal mechanisms of tongue and lip involvement in the unrestricted infant latch
- Learn how to do a proper infant oral assessment and know how to demonstrate the difference between a tie and a frenulum
- Provide appropriate guidance and care for children and adolescents facing issues of gender variance, including gender identity and gender expression
- Describe the assessment and treatment of anxiety in children and adolescents
- Recognize unique aspects and “red flags” in evaluating childhood and adolescents primary and secondary headaches
- Determine disability and influence of co-morbid conditions
- Develop a treatment plan that incorporates acute, preventive and bio-behavioral management tools

DISCLOSURES

Disclosure of financial Relationship and Resolution of conflict of Interest

The Kansas Chapter, American Academy of Pediatrics Policy on Disclosure of Financial Relationships and Resolutions of Conflicts of Interest is designed to ensure quality, objective, balanced, and scientifically rigorous CME activities. All individuals in a position to influence and/or control the content of KAAP CME activities have disclosed that they either have no relevant financial relationships or any financial relationships with the manufacturer(s) of any commercial product(s) and/or provider of commercial services discussed in this CME activity
